COMPANY OVERVIEW

Etimad Akhunzada Group of Companies (EAGOC) trading as Etimad Construction – was established in 2013. We deliver high-quality construction, project management, logistics, mining and trading services. Our approach combines strong local knowledge with international standards to deliver projects on time, safely, and within budget. We create positive, memorable experiences for clients by focusing on quality, communication, and integrity.

OUR PROCESS

Mission

To provide professional, timely, and cost-effective construction services guided by strong engineering ethics, local code compliance, and a commitment to client satisfaction.

Vision

To contribute to a safer, more modern Afghanistan by delivering world-class infrastructure and buildings – becoming a trusted partner locally, regionally, and internationally.

CAMPANY VALUES

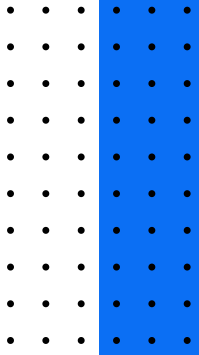

For us, the project site is an extraordinary battlefield – where construction becomes a state-of-the-art discipline that balances human resources with limited project resources. Safety, quality assurance, and quality control are the codes and ethics of our professionalism, while communication is the true language of engineering.

At Etimad Construction, our philosophy is built upon six rules and one value-added principle:

Man – Method – Machinery – Money – Management – Safety, and above all, Clients, not Projects.

Therefore, customer satisfaction and value-added incentives for both our internal and external stakeholders form the foundation of our company's existence.

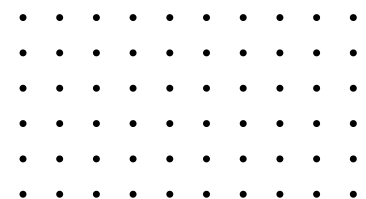

WHAT WE DO

We are a diversified group of companies dedicated to delivering integrated and reliable solutions across multiple industries. Combining innovation, expertise, and a commitment to excellence, we provide services and products that promote sustainable growth, operational efficiency, and long-term value for our clients and partners.

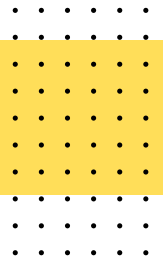

- ✓ EAGOC - Construction
- ✓ EAGOC - Mining
- ✓ EAGOC - Logistic
- ✓ EAGOC - International Transport
- ✓ EAGOC - Transit
- ✓ EAGOC - Trading

PROJECT MANAGEMENT SERVICES

Our project management team ensures efficient, problem-free project delivery. Services include scheduling, cost control, quality control, permitting support, and stakeholder coordination. We represent the owner's interests from initiation through handover to ensure projects finish on time and on budget.
